

In October of 2016, I was offered an opportunity to acquire the company that I was working for. The opportunity, if I could have acquired the company, would give me ownership of a company in the food services industry that was over 40 years old, very successful and quite profitable. The deal required that I provide a substantial down payment to the owner and develop other forms of financing to support the business before the transaction could close. I did not have the necessary funds to take advantage of this remarkable opportunity. I was referred to Ideal Corporate Funding, Inc., by the principal of a company Ideal had successfully financed. I met with Irving Ayash and Jim Downey of Ideal. They guided me through the process through thick and thin. Jim Downey was instrumental in the preparation of our documentation for the lenders and successfully negotiated a favorable loan allowing me the opportunity to purchase the assets of the company.

It would be an absolute pleasure to recommend Ideal Corporate Funding, Inc., to anybody seeking financing for their company. Ideal is reliable, credible and very much in touch with the lending community. They can get the deal done.
