New Rochelle, NY 10804

Dear Irving:

Thank you for your persistence and determination in finding a senior secured loan for Scrimtec Industries, Ltd, a Canadian subsidiary of Shuqualak Lumber Company attempting to construct an engineered wood products manufacturing facility in Quebec.

Financing this CS\$250,000,000 endeavor has not been an easy task, and I have enjoyed working with you to find and secure a US\$95,000,000 loan that might allow this project to finally move forward.

Your connections in the world of finance are impressive, and the stories shared by you of your past successes in locating funding for unusual projects have been inspiring. I would recommend your services to anyone seeking to locate funding for projects that do not fit the typical bank financing template.

Best regards,
