May 5, 2008

To Whom it May Concern:

This letter is written to anyone who is contemplating seeking debt financing for their enterprise. I wish to express my complete satisfaction and confidence in Mr. Irving Ayash and the rest of the staff at Ideal Management, Inc.

I had for months been diligently seeking a way to finance the manufacture and importing of an aircraft that we manufacture in Brazil and market in North America. I had met and worked with too many individuals and firms that were all talk and braggadocio, but were totally incapable of performing and each time it ended in being a bitter experience. That is until Irving and company came along.

In a few short weeks Ideal had set up meetings with substantial sources which have subsequently resulted in our obtaining a \$6million facility that will allow us to expand our production and fund the growth of the company.

The tremendous experience, creative structuring and long list of available sources that can be accessed with Ideal's assistance is invaluable to a company wanting to grow their business.

This letter of reference is provided without any reservations by myself and the management team here at Quasar Aircraft Company, Inc. Should anyone wish to contact me to expand on the foregoing, I can be reached at the numbers or addresses set forth above.

Sincerely,

*Dean Bradley*  
*Chief Executive Officer*
